January 5th
January 17th
February 9th

3:30 - 5:00

Gayl Bowser

Gayl has been a key figure in shaping assistive technology nation wide. She provides consultation, training, and technical assistance in the area of assistive technology throughout the United States and internationally.

January 5 – AT Consideration: A guide for every IEP team

Consideration of a student's need for assistive technology is a required part of the development of every IEP. But in some IEP meetings consideration can seem like a daunting task. What should be categorized as assistive technology?

This webinar will address questions like these, using the Quality Indicators for Assistive Technology in the IEP as an organizing factor. A variety of written resources, forms and guidance documents will be provided to participants for use after the

January 17th/ February 9th

The Box is Checked, Now What?

Julie will provide information regarding federal requirements that will assist LEAs in meeting consideration, eligibility, IEP development, least restrictive environment and 504 Plans. The webinar series will address and increase LEAs knowledge about the laws that regulate and form special education services, as well as the legal implications related to applications of AT.

Julie Weatherly
Esq

Julie has been working with school agencies in the area of special education for almost 30 years. She assists educational agencies in the avoidance and resolution of special education legal disputes arising under the IDEA, Section 504 of the Rehabilitation Act of 1973, the ADA and other applicable laws.
